

The UTQC-1263 Utility Cable Stripping Stop Clamp allows for quick and precise clamping on medium voltage electrical utility cables ranging from 1/2" to 2-1/2" in diameter. Made from corrosion-resistant anodized aluminum and black-oxide coated steel, it serves as a reliable clamp to stop jacket stripping tools, such as our UTST-1860, from continuing to strip the cable.

This cable stripping stop clamp also features the following:

- Securely grips cables to stop stripping tools from continuing to strip the jacket or insulation of a cable
- Made with durable materials for long-lasting performance in tough environments
- Allows quick attachment and removal, reducing on-site work time
- Ergonomic handle offers a comfortable grip, reducing hand strain during use
- Compact size makes it easy to carry and use in tight spaces

SPECIFICATIONS
