

Fiber Raceway >

Molex Connected Enterprise Solutions is offering the Optical Fiber Duct Raceway product portfolio as a ducting solution for the cables for data center racks. The standard color is yellow and offering includes the most common part numbers for you to construct your fiber cables pathway.

To meet the accelerating growth of the data centers to support the digital space and AI transformation is increasing faster than ever before. Molex is committed to connecting businesses with the information and support they need working to power industries with newer solutions to support the various global market segments. For this fiber raceway product Molex is in partnership with Warren and Brown an established supplier.

The Fiber Raceway components include straight duct pathway lengths, tees, elbows and crosses, joiners, end caps, adapters, tubing, reducers, and express outlets. Molex offers brackets, mounting hardware, as well as tool kits to aid with installation.

Contact Molex to support your optical fiber ducting pathway design for your project. We can assist you with your specific configuration and provide a corresponding bill of materials (BOM).

Images show the fiber raceway with several different options to manage the fiber cables about the datacenter racks. The yellow raceway components offered include mounting hardware, down drops, elbow/corner pieces, straight duct pieces among others.

FEATURES AND ADVANTAGES

These features and benefits make Molex's Fiber Raceway product offering a reliable and efficient solution for managing optical fiber cables in various environments.

Robust and Versatile: Designed to support seamless growth, ensuring that data centers are future proof.

Fire Resistant: Made from Low Smoke Zero Halogen (LSZH) material certified to UL94V0 specifications, reducing toxic and corrosive gas emissions during a fire.

Protection: Ensures all critical points of the fiber cable management are met, including bend radius protection, cable access and routing, and physical protection.

Ease of use, in the industry standard yellow color and 100, 220, 300, and 600mm (4 , 8, 12, and 24 inches) dimensions.

Customizable: Can be easily customized and designed for specific facility requirements, with options for slotted or slotless joiners.

High Quality Standards: Manufactured to the highest quality standards (ISO9001), complying with UL2024A & ROHS, and carrying a 10-year warranty.

Versatile Installation: All parts are pre-slotted and can snap together or can be joined with "slotless" joiners, with vertical drops easily positioned or added.

SPECIFICATIONS

Requirements & Standards

The fiber raceway conforms to the following requirements and standards:

ISO9001 Certified Quality Management system by BSI

Halogen free and fire-retardant plastic requirements: UL94V-0 for 100, 220, 300 and 600mm (4 , 8.6, 12 and 24 inches) ducting.

UL94V-1 for 30 and 50mm ducting

Low Smoke Zero Halogen (LSZH)

UL2024A standard

EEU-ROHS requirements

GR-63-CORE earthquake test compliance

TSCA approved
