

Category 6A Shielded Field Termination Plug >

The Molex Category 6A shielded field termination plug is designed to support 10GB networks and can be easily terminated using parallel jaw pliers.

Termination is accomplished by placing the conductors into the proper wire slots in the wire cap. Place the wire cap onto the plug, using pliers to squeeze the wiring cap. All eight conductors are simultaneously terminated when the wire cap is squeezed. This process ensures quick, consistent, reliable terminations. The IDC is designed to accommodate different diameter conductors from 22 AWG-26 AWG Solid Wire. The Field Terminable Plug meets TIA-568.2-D Category 6A component performance, Cat 5e/6 and 6A Direct Attach link and channels.

Ideal for use to provide high-bandwidth wireless access points and other IP-enabled devices such as: Surveillance cameras, APs and infrastructure monitoring. A field modular plug that is simple to terminate and meets Cat 6A performance requirements and is ideal for use with devices, premise automation such as lighting, HVAC and other environmental sensor applications. Available in straight and right angled configuration.

KSP-00001

KSP-00002

FEATURES AND ADVANTAGES

Supports 10GB networks

Designed to accommodate conductors from 22 AWG - 26 AWG

IP 20 rating; TIA-568.2-D Cat 6A MPTL compliant; Backward compatible with C6/C5e MPTL

UL approved

Ideal for wireless access points and IP-enabled devices

PoE Compliant (See Specifications below)

Tool-free, no punch down tool required

RoHS compliant

Plug to plug not supported

Category 6A Shielded Field Termination Plug

SPECIFICATIONS

Reference information

Commercial Standards:

IEC 60603-7-5
UL 1863, UL 2043
CSA C22.2
TIA-568.2-D Cat 6A
TIA-1096-A
IEC-60603-7-51
IEEE 802.3 bt POE Type 3 / Type 4 with 90W at PSE Side
EN 50173

Mechanical

Transmission performance: Cat 6A/
Class EA Direct attach link and channels

Plug protection category: IP 20

Wiring label: TIA 568A/B & PNO

Working temperature: -40 °C to 85 °C

Termination capability:

Solid wire: 22-26 AWG

Stranded wire: 22-27 AWG

Re-termination capability: 5 times

Supporting cable diameter: 6-9mm

Plug Housing: Zinc Alloy
Plug Pins: Phosphor bronze with
50u" gold plating
Durability: 750 mechanical cycles

Electrical

Current rating: 1.5A

Dielectric withstanding voltage: 1000V DC

Insulation resistance: 500M Ω min.

Contact resistance: 20m Ω max

PoE

Our PowerCat 6A system is suitable for the most demanding PoE applications:

IEEE 802.3bt from Type 1 to Type 4, and
CISCO UPoE+
HD Base-T PoH up to 100W
RP3 compliant as defined by EN 50174-
2:2018, ISO/IEC 14763-2:2019 and AS/NZS
14763.2:2020

Notes:

For new installations of PoE Type 3 / Class 5 and above that wish to be eligible for the Molex 25 year Application Assurance Warranty, we require Category 6A cable to be used throughout.

To confirm your PoE / RP3 cabling design is eligible for the Molex 25 year Application Assurance Warranty, your design must be verified and validated with the Molex PoE Calculator. Read more <https://www.molexces.com/poe-calculator>

Molex recommends that the PoE feature on an individual switch port are power disabled prior to unplugging the associated powered Device.

Molex recommends that the full range of PowerCat 6A products be used in a system to maximize cabling and PoE performance. Details on Molex requirements for Warranty can be found at <https://www.molexces.com/about-us/our-warranty/>
