

VGC™ 6-Outlet Basic Surge Protector - 4 ft. Cord

Features & Benefits

- 6 surge protected outlets to extend power supply options
- 150 joules of surge suppression to protect electronics
- 4 ft. heavy-duty grounded power cord for extended reach
- Lighted On/Off switch with integrated 15A circuit breaker
- Slim profile for discrete installations
- Includes recessed screw cavities for wall mount application

Standards Compliance

- UL Listed
- RoHS Compliant

Construction

Housing Material: ABS (flame resistant)

Product Dimensions (not incl. cord): 9.5" x 1.25" x 1.38"

Product Weight: 0.5 lbs.

Outlet Type: NEMA 5-15R

Outlet Quantity: 6

Cord Specs: 14 AWG 3-wire grounded SJT

Cord Length: 4 foot

Plug Type: NEMA 5-15P

Plug Style: Straight

Mounting: Two recessed screw cavities on bottom of housing

Electrical

Input / Output Voltage: 120 Volts

Input / Output Frequency: 60 Hz

Maximum Input Current: 15 Amps

Maximum Output: 1875 Watts

Circuit Breaker / Overload Protection: 15 Amps

Surge Suppression: 150 Joules

Protection Mode: L-N

Response Time: 1 Nanosecond

Clamping Voltage: 800 Volts

Applications

The Vericom 6-outlet basic surge protector is ideal for use in the protection of computers, printers, video players, stereo systems, cell phone chargers, small appliances, and other home electronics from damage caused by lightning strikes or other power surges.

Description / Specifications

This surge protector includes 6 surge protected outlets, a 4 foot heavy-duty grounded power cord, and a lighted On/Off switch with integrated 15 Amp circuit breaker. This surge protector is designed to protect many types of electronic devices but is intended for indoor use only.
