

VGC™ RG6 Dual Shield Twist On Connector

Features & Benefits

- Easy twist on installation to any dual-shield RG6 coaxial cable
- High performance F-type connector capable of a bandwidth up to 3 GHz
- Bulk packaged in bags of 100

Construction

Material:

(1) **Nut:** Nickel Plated Zinc Alloy

(2) **Body:** Nickel Plated Zinc Alloy

Connector Type: F-type Twist-On for Dual Shield RG6

Applications

The Vericom RG6 dual shield twist on connector is an economical solution for terminating RG6 coaxial cable. This connector is commonly used for antenna, cable television and satellite television installations.

Description / Specifications

This 75 Ohm RG6 dual shield twist on connector is made from nickel plated zinc alloy to provide durability.

Ordering Information

Description	
F-Type Twist On Connector for Dual Shield Coaxial Cable	
Packaging	Item Number
Bulk (100 Per Bag)	WTW6D-03445

Electrical /Mechanical

Impedance: 75Ω

Bandwidth: 0-3,000 MHz (3 GHz)

Environmental Conditions

Operating Temperature: -40 °F to 140 °F (-10 °C to 60 °C)
